A calm base. One highlight

Altid Hjem looks the same everywhere: Cream and Deep forest, two typefaces, rounded corners, warm Danish. On every screen and in every mail one element is allowed to stand out.

APP

APP STORE

MAIL

Each sheet shows the rule first, then real examples. The pill on an example tells you where it comes from.

The whole household's finances in one app

Altid Hjem brings the household's fixed costs together in one place:
food, electricity, insurance and economy. One overview, one login.

Altid Mad

A meal plan and a shopping list with prices from the shops you use.

Altid Energi

See the electricity price hour by hour, and find out when power is cheap.

Altid Forsikring

Keep all your insurance policies in one place, and sign up for a quote.

Økonomi

Connect your bank and see what you have left until payday.

Keep the base. Highlight one element

All media uses Cream, Deep forest and the same UI elements. One big number, one colour block or one Deep forest background may stand out. Never two.

Always the same

- The colours and what they mean
- DM Sans and Onest, one type scale
- Rounded corners: 20 px in the app, 32 to 50 in mails
- Buttons, cards and the tab bar
- Warm, plain Danish

Free to vary

- Scale: a number as big as the screen allows
- Pastel blocks and Deep forest backgrounds
- Data shown as a picture, not as a table
- One element people remember

Would you screenshot it?

Our design philosophy is built around this. We don’t prioritise what’s conventional, polished or perfectly aligned. Instead, we focus on creating unique, memorable experiences that make users want to take a screenshot and share it with a friend.

SHEETS 08 TO 09

LOGO, LOGO RULES

Brand design

Wordmark and app icon

The logo consists of the wordmark and the app icon. The wordmark is used on Cream and Deep forest. The app icon always stands on its own, with its rounded corners.

Wordmark on Cream

Wordmark on Deep forest

App icon on Cream

App icon on Deep forest

Lavender in use: the Altid Mad card in the welcome mail

One pastel per card.

The block carries the picture: one idea per block, eight words at most. Text on a pastel is always Deep forest.

Colours in use

APP

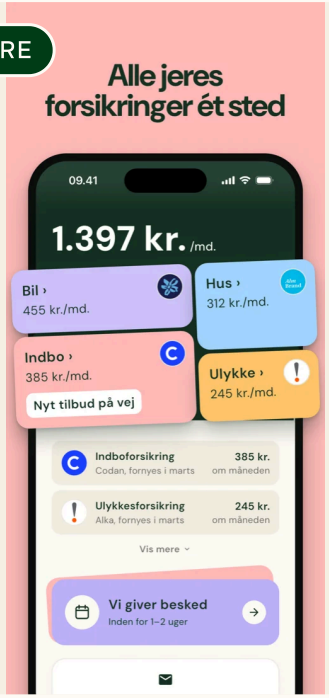

Deep forest · Cream · Honey · Signal green

MAIL

Lavender · Deep forest

APP STORE

Rose · Deep forest · Cream

Deep forest and Cream carry every surface. A pastel marks one card. Signal green marks the one action.

SHEETS 15 TO 17

TYPOGRAPHY, ANATOMY OF A SCREEN, ANATOMY OF A MAIL

Type

TYPOGRAPHY · DM SANS 700

Nu åbner dørene til Altid Hjem

The doors are now opening to Altid Hjem

Headline	DM Sans 700 · 28 px · line height 1.15
Closing line	DM Sans 700 · 26 px · line height 1.15
“Hvor handler vi billigst ind?”	Hanging quotation marks · indent -0.42 em
Body text	Onest 400 · 16 px · line height 1.6
Signature	Onest 500 · 16 px
Caption	Onest 400 · 13 px · Stone

The app uses DM Sans for everything. Mails use DM Sans for headlines and Onest for body text.

NUMBER FIRST

2.090 kr. tilbage

Big numbers: DM Sans 800, line height 0.9, with a smaller unit after the number. One big number per screen.

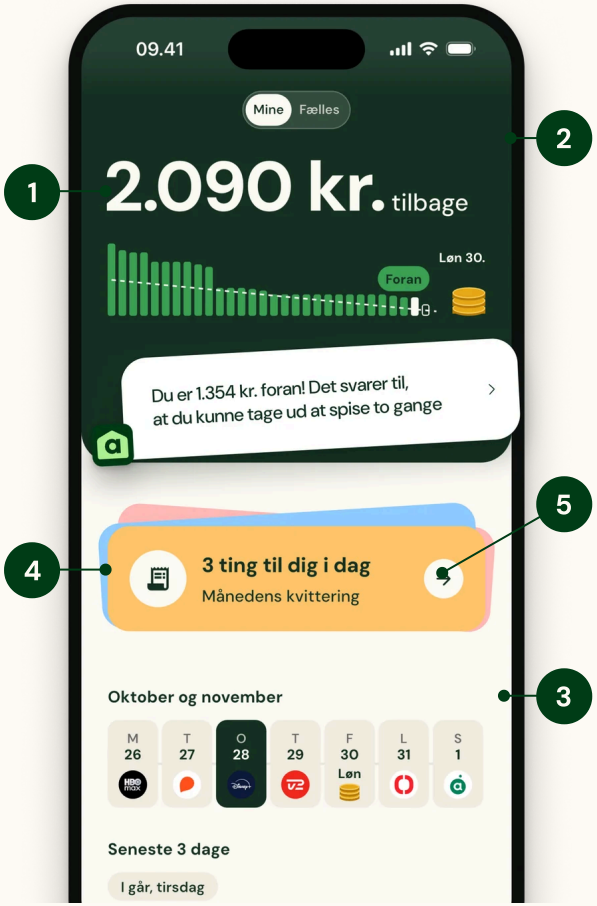

Hej Thor,

Du skrev dig op til Altid Hjem, og nu er ventetiden endelig forbi! Som en af de første får du eksklusiv adgang til vores beta. Hent appen allerede i dag, og vær med til at forme Altid Hjem.

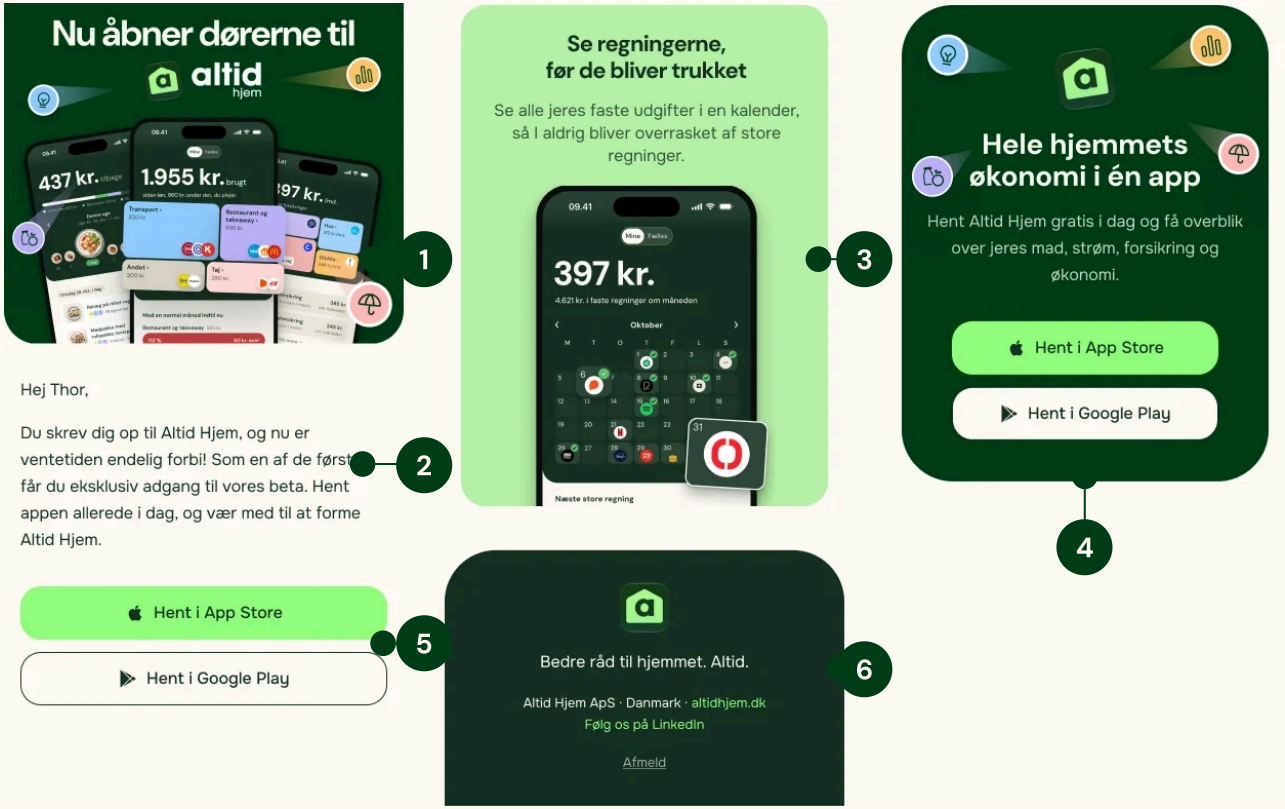

Onest 16 px, set as in the welcome mail

Anatomy of a screen

1. Hero number, DM Sans 800, as big as the screen allows.
2. Deep forest hero at the top.
3. Cream body.
4. One pastel card that pops out.
5. One primary action per screen. In the app it is a Deep forest button.

Anatomy of a mail

1. Header: headline and lockup on Deep forest, bottom corners radius 50.
2. Intro: first sentence Deep forest, the rest Stone.
3. Cards: one pastel each, the phone breaks out at the bottom.
4. Breaker: Deep forest, radius 50, icons with light beams.
5. Store buttons in Signal green, QR cards for desktop readers.
6. Footer: Dark forest, top corners radius 32.

SHEETS 19 TO 23

CARDS, THE BLOCK, BUTTONS, QR AND FOOTER, IMAGERY, SIX CHECKS

Elements

Cards

One idea per card. One pastel. A headline that asks the everyday question. The phone breaks out of the card.

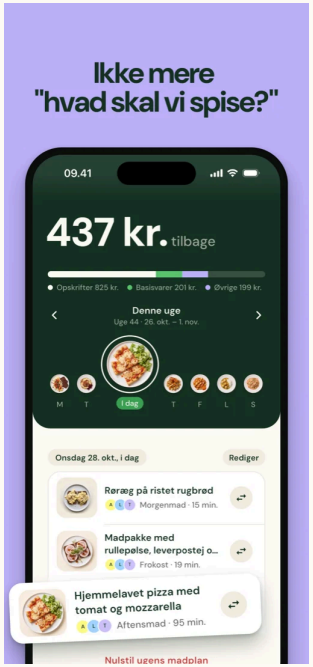

MAIL

APP

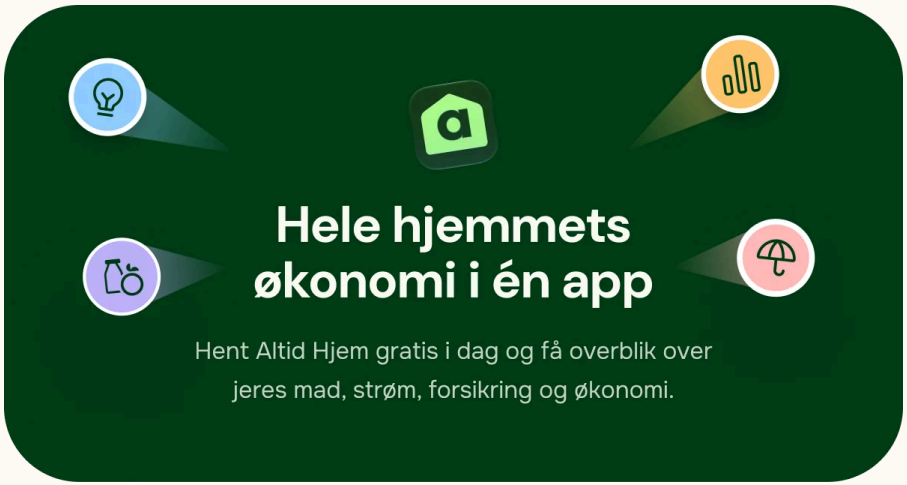

APP STORE

The block

A Deep forest block carries the statement: the hero of a screen, the breaker of a mail, the header of a store slide.

MAIL

APP

APP STORE

Buttons, QR and footer

Signal green is the action. One button per screen; in mails only the store buttons. Secondary buttons sit on Cream.

MAIL

Hent i App Store

Hent i Google Play

Store buttons: Signal green pill, Deep forest text; the second sits on Cream.

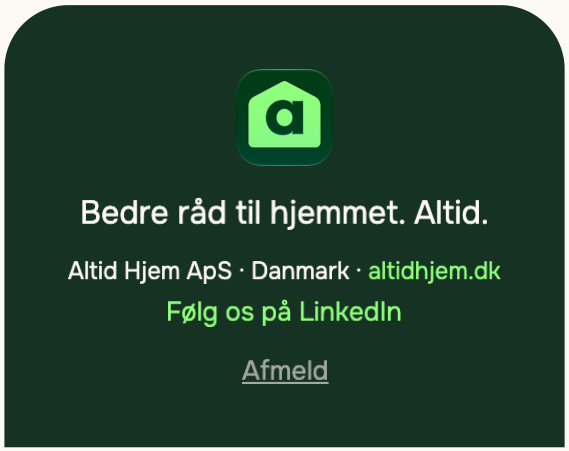

MAIL

Hent i Google Play

QR cards for people reading on a computer

MAIL

Footer: Dark forest #163223, top corner radius 32

APP

Ret drøm

In the app the primary button is Deep forest, one per screen.

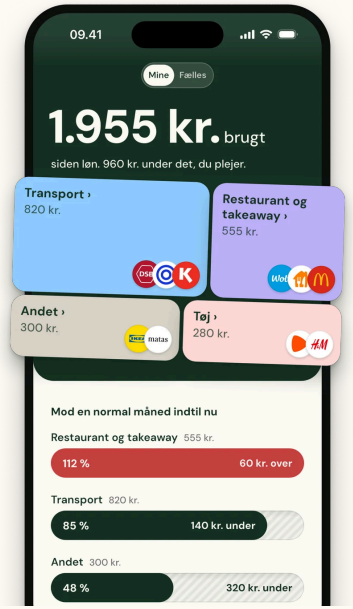

The app is our picture

We don’t use stock photos or standalone illustrations. When displaying the app, we also use real app screens with sample data, shown in a phone, and can include elements breaking out of the phone.

Real screens, never mock-ups with filler text

The number is always readable in the picture

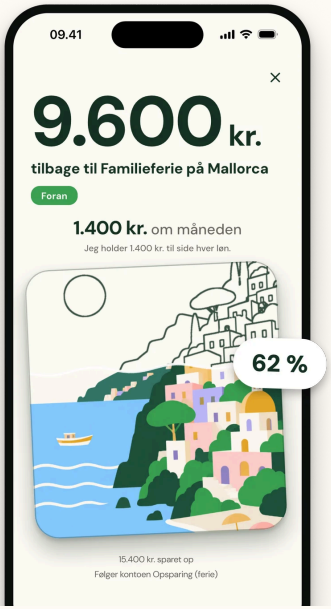

Icons come from the app, each in a pastel circle with a white ring

Økonomi: categories and shop logos outside the phone

Altid Forsikring: four policies as colour blocks, each with a logo

Drømme: the goal as a drawing, the percentage outside the phone

Six checks for every screen

1

Picture first

Start with the picture. Use text only where the picture cannot explain the idea.

2

Make them want it

The standard is “I want that.” Correct is not enough.

3

Show what they miss

A feature that is switched off is shown as a missed saving in kroner. Never greyed out.

4

See it, not read it

An error looks like an error before anyone has read a word.

5

Within thumb reach

The button or switch sits where the thumb can reach it.

6

Nothing extra

Remove back arrows with no function, lines that repeat the title, and pills with no purpose.

SHEETS 25 TO 26

HOW WE TALK, WORDS WE USE

Voice

TONE OF VOICE

How we talk

THE EVERYDAY QUESTION

Ikke mere “hvad skal vi spise?”

No more “what's for dinner?”

WARM AND DIRECT

Du skrev dig op til Altid Hjem, og nu er ventetiden endelig forbi!

You signed up for Altid Hjem, and the wait is finally over!

PERSONAL CLOSING LINES

Vi glæder os til at se dig/jer

We look forward to seeing you

Not like this	Like this
Brugeren kan aktivere funktionen The user can activate the feature	I kan slå det til You can switch it on
Spar penge på din økonomi Save money on your finances	4.200 kr. sparet i år 4,200 kr. saved this year
Vi har registreret dit forbrug for perioden We have registered your consumption for the period	Her er jeres forbrug i marts Here is your consumption for March
Der opstod en fejl. Prøv igen senere. An error occurred. Try again later.	Vi kunne ikke hente jeres priser. Prøv igen om lidt. We could not fetch your prices. Try again shortly.

Always du, I and jeres (you), never brugere (users). Use an amount instead of a promise, and give every number a source. No dashes: write ranges as kl. 13 til 15. We say ét overblik, ét login (one overview, one login).

GLOSSARY

Words we use

Base	Cream and Deep forest, the same everywhere
Block	A rounded colour rectangle that holds one idea
Pop-out	An element that breaks out of the phone
Breaker	The Deep forest block that interrupts a mail
Pastels	The six soft colours, one per card
Highlight	The one element allowed to stand out
Card	A block with a phone or a number inside
Hero number	The big amount at the top of a screen
Signal green	The one colour for action
Sheet	One page of this book
